## **DETAILED ACTION**

### **Restrictions**

This application contains claims directed to the following patentably distinct species of the claimed invention: Species I drawn to Figure 2, Species II drawn to Figure 3, Species III drawn to Figure 5, Species IV drawn to Figure 6, Species V drawn to Figure 7, Species VI drawn to Figure 8, Species VII drawn to Figure 9, Species VIII drawn to Figure 10, Species IX drawn to Figure 11, Species X drawn to Figure 12, Species XI drawn to Figure 13, Species XII drawn to Figure 14, Species XIII drawn to Figure 15, Species XIV drawn to Figure 16, Species XV drawn to Figure 17, Species XVI drawn to Figure 18, Species XVII drawn to Figure 19, Species XVIII drawn to Figure 20, Species XIX drawn to Figure 21, Species XX drawn to Figure 22, Species XXI drawn to Figure 23, and lastly Species XXII drawn to Figure 24

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include

all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
